Open-Air Stages, Marquees, Grandstands

A Product Information Sheet by the Lifts and Machinery / Amusement Industry B.U.

The term "temporary structures" covers all facilities which are not permanently fixed to the ground they are built on. The term includes but is not limited to:

- Open-air stages
- Marquees and tents
- Grandstands
- Temporary exhibition halls
- High wire trapezes for artist performances
- Show Displays

Our services

As an experienced impartial expert organisation, TÜV SÜD offers support and state-of-the-art know-how covering all aspects from the planning to the operation of your structure.

Our experts

- Carry out comprehensive testing in the design phase
- Provide feasibility studies and consulting services in the test phase to ensure design optimisation
- Review the submitted documentation (structural analysis, drawings etc.) for compliance with applicable regulations
- Carry out on-site acceptance testing of new structures
- Conduct additional tests (where necessary)

- Issue permits after test completion
- Issue a log book together with the permit
- Carry out tests and inspections required or extensions to permits
- Issue extensions to permits

Your benefits

- Legal certainty, as all relevant national and international standards and regulations are complied with
- A high level of safety and reliability for the facilities we deal with
- Germany-wide operation of your facilities after completion of the approval procedure, as the logbook is valid throughout Germany
- We are a recognised, reliable and expert partner for event organisers and operators, manufacturers and building authorities

TÜV SÜD offers a comprehensive range of services for the safe and cost-effective operation of temporary structures. Interested in more detailed information about our services? Don't hesitate to contact us.

We will be pleased to explain possibilities of co-operation and operate wherever your location is.
