Testing of Sports Leisure Facilities: Summer Toboggan Runs and Cable Tows for Water Skiing

A Product Information Sheet by the Lifts and Machinery / Amusement Industry B.A.

Summer toboggan runs and cable tows for water skiing must be subjected to initial examination and periodic inspection at regular intervals to verify their structural condition and operational safety. Testing is based on the construction code governing cable tows for water skiing and the guideline governing the construction and operation of summer toboggan runs as well as relevant national and international test standards, primarily EN 13814.

Our services

As experienced third-party expert organisation, TÜV SÜD assists you with current know-how and a comprehensive range of services for all aspects relating to the safety, availability and cost-effectiveness of amusement rides and structures. These services include:

- Periodic inspection of structural condition and operational safety
- Expert tests by means of a systematic approach, plus consideration of the special features of specific facilities or types of facilities

Your benefits

Legal certainty and technical expertise

Our experts boast over 20 years of experience in the testing and approval of summer toboggan runs and cable tows for water

skiing. Thanks to our participation in national and international working parties and committees, we are highly familiar with the state of the art and applicable standards and regulations. This ensures that the rides and structures we inspect offer the utmost safety and reliability.

Benefit from our good name

As the name TÜV SÜD is widely known and enjoys an excellent reputation, you can rest assured that our reports and certificates will be widely accepted and that our brand is also known internationally as a guarantee of safety and quality.

Risk minimisation

Our experts give timely information concerning any repair and improvement measures that may become necessary.

Cost effectiveness

Timely recognition of repair needs and associated damage control minimise costs and efforts thus contributing to the cost-effective operation of your ride or structure.

Don't hesitate to contact us. We will be pleased to prepare a quotation without any obligation on your part.

TÜV SÜD. Choose certainty. Add value.
