

Industrie Service

**Choose certainty.  
Add value.**

Aerial cableways are one of the safest means of mass transport. Their safety is ensured through leading-edge technology, fully qualified employees and stringent

statutory requirements. For the testing, inspection, acceptance and certification of your cableways, rely on the highest expertise – the specialists of TÜV SÜD.

## Your Number One Topic: Cableway Safety

TÜV SÜD Industrie Service GmbH

## Our name stands for safety – from peaks to valleys.

Hikers, skiers, walkers or professional athletes – they all expect your aerial cableway to operate with complete safety. Leave the safety of your aerial cableways in the expert hands of the specialists from the TÜV SÜD.

**Commission us to carry out all statutorily required tests, controls and inspections.**

We perform all tests, inspections and certifications required by law for cableway operation, whether you are the operator, manufacturer or designer of a cableway installation.

We offer support and provide training for you and your employees – also specifically on the new Cableway Installation Regulations and EU Directive 2000/9/EC. We were proactively involved in the drafting of this EU Directive and of European standards on cableways, so that our experts are highly familiar with these new regulations.

Play it safe. Contact the cableway specialists of TÜV SÜD in Munich or Jenbach.

**TÜV SÜD. Choose certainty. Add value.**

**Expert.**  
**Objective.**  
**Cost-effective.**

## Top performance for your benefits.

### Our services:

- ▶ Wire rope testing by means of the magnetic induction method
- ▶ Non-destructive tests
- ▶ Materials tests
- ▶ Stress measurements on cars and sheaves
- ▶ Workplace evaluation
- ▶ Provision of occupational health and safety experts
- ▶ Testing of hoisting equipment, gates, lifts
- ▶ Testing of cableways for material handling
- ▶ Damage assessment
- ▶ Quality assurance/certification as per ISO 9000
- ▶ Advisory services on environmental protection systems as per EN 14001
- ▶ Employee training and instruction
- ▶ and many other services

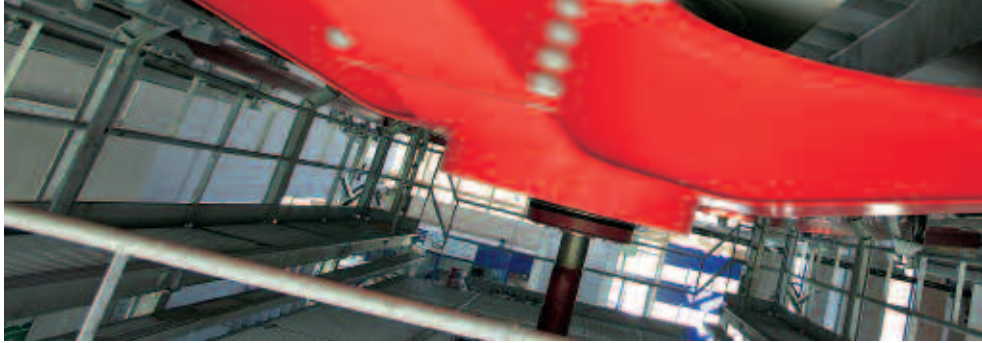

### Your benefits:

- 1 Gain cost transparency:** a clear quotation is issued as a standard service.
- 2 Save money:** rapid and cost-effective performance of all commissioned tasks.
- 3 Gain freedom:** we coordinate our schedule with you to enable you to plan reliably – because nothing could be worse than standstill at peak times.
- 4 Gain technical expertise:** we proactively participate in preparing the technical directives governing the safety of European cableway installations. This is one of the reasons why our training courses and services are always up to date.
- 5 Increase availability:** by pooling as many services as possible we minimise operation holdups to your cableway installation.
- 6 Increase safety:** impartiality and objectivity are basic requirements for your installation to function in the best possible way throughout all areas of cableways engineering. And there is no better source for third-party assessment of your installation's functional safety than our officially authorised TÜV SÜD experts.
