Verification of CO₂ Emissions Reports

A Product Information Sheet by the Environmental Engineering Business Unit

Legal background

Your organisation's participation in the EU's Emissions Trading Scheme includes mandatory monitoring and reporting of your CO₂ emissions. This report must be verified annually by an accredited verifier and submitted to the authorities.

Our services

TÜV SÜD Industrie Service GmbH pools long-standing and extensive experience in environmental protection. Founded in 2000, Carbon Management Services offers end-to-end support in EU Emissions Trading. Whatever your requirements, our expert network spans all sectors and guarantees professional solutions.

When it comes to verification of CO₂ emissions reports, we assist you by providing the following services.

- Review of the data included in the GHG emissions report for correctness
- Assessment of the monitoring method for compliance with requirements
- Assessment of data management
- Preparation of verification report and certificate issue

Your benefits

Carbon Management Services has the largest team of EU emissions trading experts and verifiers throughout Germany. We have regional representations and offer experience covering all types of industrial plants. On your behalf, we guarantee timely submission of your emissions reports even if personnel bottlenecks arise during the work-intensive months of verification. Expert contacts will be generally available in your vicinity.

See for yourself the array of arguments in favour of a partnership with TÜV SÜD.

- ▶ Technical expertise promptly available
- ▶ Compliance with operator's duties as specified by law
- ▶ Avoidance of penalties imposed for delayed report submission
- ▶ Avoidance of stressful situations and unnecessary risks when it comes to meeting submission deadlines

The first-class reputation of the TÜV SÜD brand ensures a high level of acceptance of our reports and certificates.
