Certification of Quality Assurance Systems as per EN 13015

A Product Information Sheet by the Lifts and Machinery Business Area

European standard EN 13015 defines all elements of qualified lift and escalator maintenance and the rules governing preparation of maintenance instructions, manuals and information to be complied with by both operators and maintenance companies. Certification as per EN 13015 enables maintenance companies to furnish proof to lift and escalator operators and insurance companies that they are qualified in line with the national regulations of the country in which the system is operated and carry out all work in an expert manner. Maintenance of qualifications is verified in annual surveillance audits.

Our services

TÜV SÜD is an EU-recognised testing, inspection and certification body. Our experts assist companies with all issues concerning the safety and quality of their lifts and escalators. Impartial, expert and cost-efficient.

Our certification services for quality assurance systems as per EN 13015 comprise

- General information about EN 13015
- Review of documentation
- Verification of QA system effectiveness
- Verification of personnel qualifications
- Performance of the necessary audits

After audit completion, a detailed audit report will be prepared and a positive audit result documented in a certificate.

Your benefits

Technical expertise and legal compliance

TÜV SÜD experts have long-standing experience in the field of lifts and machinery.

Thanks to our intensive participation in the development of European standards, we are completely familiar with the state of the art and statutory regulations. The wide public awareness and excellent reputation of our brand also ensure that our reports and certificates meet with a high level of acceptance.

Marketing edge for your services

Certification helps you market your services, as operators who commission a maintenance company certified as per EN 13015 fulfil their obligations.

Interested in learning more about our services? Call us! We will be happy to submit a quotation with no obligation on your part.

TÜV SÜD. Choose certainty. Add value.
