## Services for Escalators and Moving Walkways as per Machinery Directive 2006/42/EC

A Product Information Sheet by the Lifts and Machinery Business Area

Escalators and moving walkways are subject to the Machinery Directive 2006/42/EC (previously 98/37/EC). The “state of the art” is described in the European Standard EN 115-1:2008.

TÜV SÜD Industrie Service GmbH is a recognised testing, inspection and certification body and offers support to manufacturers or operators of escalators and moving walkways. From compliance assessment to safe and cost-effective daily operation. Impartial, competent and cost-effective.

### **Our Services**

- Advice and tests during construction
- Periodic tests
- Independent, expert surveys of any type (condition, legal reports, etc.)
- Damage assessment
- Assistance with hazard assessment
- Risk evaluation support
- Assessment of the state of maintenance
- Training of your personnel

### **Your Benefits**

- ▶ Planning certainty for manufacturers and architects
- ▶ Support operators in fulfilling their duties according to the German Health & Safety Act
- ▶ Increased availability
- ▶ Increased operational safety

Our experts boast longstanding experience in testing and inspecting escalators and moving walkways. Thanks to TÜV SÜD’s proactive role in the preparation of technical directives and European standards, our employees are highly familiar with the statutory requirements.

TÜV SÜD’s excellent brand and reputation ensures that our reports and certificates will be widely accepted.

Any questions? Need further information?  
Please call us. We will be happy to help and provide you with a no-obligation quote.
